When you really start digging into all of these supposed “Trump scandals” that the Democrats trot out, you start to see that it’s not Trump involved at all, it’s actually the Democrats.

What’s happening with the blooming Ukraine scandal, is the same thing that’s happened with the Russia hoax.

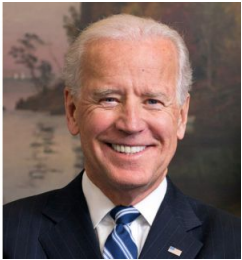

We have all of these Democrats screaming and yelling about all the bad things President Trump has done, and when you start digging,

There is no politician on the planet that has more crooked ties to Russia, than Hillary.

Starting with the Uranium One scandal.

What is the Uranium One scandal? Well, I'll give you the quick cliff note version...

In 2013, a nuclear energy company called "Rosatom," which was backed by Russia, acquired a Canadian uranium mining company that is now called "Uranium One." Through a controversial deal that was hatched out, Russia now owns 20 percent of U.S. uranium production. The agreement was approved by nine government agencies with the Committee on Foreign Investment in the United States (CFIUS), an inter-agency group that reviews how certain foreign investments can impact national security.

The “scandal” part comes in, when it was discovered that many Uranium One investors reportedly donated millions of dollars to the Clinton Foundation. In addition, Former President Bill Clinton also received a whopping \$500,000 speaking fee in Russia and also met with Vladimir Putin right around the time the deal was hammered out.

When it comes to Democrats and their “political hit jobs” there’s always dots you can connect that lead right back to them.

Take for instance this latest “Ukraine” fiasco, with some trumped up (fake) “whistleblower”

who is trying to take President Trump down.

It's just another Deep State stooge trying to help the Democrats win a desperate race in 2020.

The man leading the “Ukraine charge” is none other than Trump-hater and Russia conspiracy hoax artist Adam Schiff.

So, if our theory holds up about scandalous Dems, that would mean Mr. Schiff has nefarious connections to Ukraine, right?

Yes.

And by the way, he does...

Adam Schiff held two political fundraisers that were hosted by a man named Igor Pasternak.

Who is Igor?

Well, Wikipidea tells us that he's an arms dealer who owns a company called “Worldwide Aeros Corp” and that he's an immigrant from Ukraine.

Worldwide Aeros Corp is an American manufacturer of airships based in Montebello, California. It was founded in 1992 by the current CEO and Chief Engineer, Igor Pasternak, who

CEO and Chief Engineer, Igor Pasternak, who came to America from Ukraine. It currently employs more than 100 workers.

The company's current products are non-rigids aimed at both the military and commercial markets, including transport, surveillance, broadcasting and advertising. The company's best-selling ship is called the Sky Dragon.[2]

Apparently, Igor has "strong ties" to George Soros.

It appears that there were two fundraisers for Schiff hosted by the Ukrainian arms dealer. One in February and one in July. How much money has Ukraine pumped into Schiff's political career?

Gateway Pundit reported that Pasternak was supposedly in and around the Ukraine at the same time that Vice President Joe Biden had his son appointed to the Board of the Ukraine's largest oil and gas producer, "Burisma"

They go on to say that Pasternak, who was raised and educated in Ukraine before immigrating to the United States, is a passionate promoter of Ukrainian culture and business. He has been active in both Los

Angeles and Washington, D.C. to support increased bilateral ties between the two countries and has been especially active building awareness of Ukraine's strategic economic importance among Members of Congress. Since political protests broke out across Ukraine in late 2013, Pasternak has worked to personally inform and educate Members of Congress about the geostrategic importance of Ukraine to European and US security.

In late February 2014, during the final hours of the Yanukovych Presidency, Pasternak travelled to Kyiv for diplomatic reasons in response to the outbreak of violence that had started less than 48 hours earlier, and to support peaceful transitions amid the rapid changes now taking place across Ukraine. Pasternak is an arms dealer. He has sold arms in places like Syria.

Here is a photo of Igor with some very menacing-looking men with weapons.

Clearly, Mr. Schiff's ties to Ukraine must be investigated. Will the do-nothing GOP actually get off their fat, doughy duffs and do something?

Today, President Trump called on Adam Schiff to be arrested for treason, for the stunt that he pulled during the impeachment hearing last week.

He's right, technically, Schiff shouldn't even be in Congress after what he did.

The Whistleblower's complaint is completely different and at odds from my actual conversation with the new President of Ukraine. The so-called "Whistleblower" knew practically NOTHING in that those ridiculous charges were far more dramatic & wrong, just like Liddle' Adam Schiff..

Donald J. Trump

@realDonaldTrump

....fraudulently and illegally inserted his made up & twisted words into my call with the Ukrainian President to make it look like I did something very wrong. He then boldly read those words to Congress and millions of people, defaming & libeling me. He must resign from Congress!

We need to do so much more.

We control the Senate, and we need to be hauling in Igor, and Schiff, and Hunter, and that fired Ukrainian prosecutor and place them all under oath. What's the hold up?

Let us know in the comments below what you think should happen regarding this latest information.
